DETAILED ACTION

Response to Amendment

1. In response to the Office Action mailed 1/22/07, Applicants have submitted an Amendment, filed 4/23/07, canceling claims 36 and 39, amending claims 35 and 38, without adding new matter, and filing a terminal disclaimer.

Terminal Disclaimer

2. The terminal disclaimer filed on April 23, 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Application Number 09/834,391 (now Patent No. 6,665,638) has been reviewed and is accepted. The terminal disclaimer has been recorded.

Double Patenting

3. A terminal disclaimer was filed 4/23/07 addressing the double patenting rejection, and thus the rejection is withdrawn.

Claim Rejections - 35 USC § 112

4. Claims 35 and 38 were amended and are now in compliance with 35 U.S.C. § 112, first paragraph, and thus the rejection is withdrawn.

Allowable Subject Matter

5. Claims 22-35, 37, 38 and 40 are allowable over the prior art of record, and thus are allowed. The following is an examiner's statement of **Reasons for Allowance**:

Independent claims 22, 35 and 38 are allowed because they recite synthesis of an adaptive short-term post-filter for coding speech, based on pseudo-cepstral coefficients, which are derived from a set of linear predictive coefficients calculated for said speech. The post-filters in the closest prior art by Azhar Mustapha *et al.*, "*An adaptive post-filtering technique based on a least-squares approach*," are not based on pseudo-cepstrum, nor is there a suggestion therefor.

Dependent claims 23-34, 37, and 40 are allowed because they further limit claims 22, 35 and 38, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
